ABOUT ME

I am a final year B.Tech student with a passion for web development and machine learning. I have been coding since I was in high school, and I have always been fascinated by the power of computers to solve problems. In my free time, I enjoy reading about new technologies, dancing, and spending time with my friends and family. I am currently working on a number of personal project. I am eager to use my skills to make a positive impact on the world.
